SENATOR KAVANAUGH: Good morning, ladies and gentlemen.
I always like to start on time.

I was hoping that we'd get the number to start and have a quorum.
But the fact that we don't have -- but we do have three members--

MR. McGLYNN (Secretary): We have four.

SENATOR KAVANAUGH: Oh, four. Excuse me. We also have
the Assistant Treasurer here. So we're short one. But what we can do is get
started and then we can--

We'll ask Counsel--

MR. McGLYNN: They'll be here.

SENATOR KAVANAUGH: We always can go back.

But that's to try to help those of you here on schedules that have
to be somewhere else. You're here because we were to start at 9:00. It's not
typical of State government. I'm going to go to a meeting-- The next meeting
was supposed to start at 11:00, and I guarantee it will be at 12:30, if the
chairman will show up.

But I always start on time. So, at this time, we have met the Open
Public Meetings Act. It's been published and distributed through the State
House press.

And we'll now call the roll, please.

SENATOR KAVANAUGH: All right. There was an item on the agenda under new business that's been deleted. But I think the individuals that are concerned about that should note Number Three and see the costs of the conveyance, which is \$1000, rather than hundreds of thousands.

Barry, if you would like to come up and just make a comment on your concerns, and then we'll move on.

This was on the agenda. It was taken off. They just want to make a comment regarding a piece of property in Hunterdon County.

Okay. A few moments.

B A R R Y L E F K O W I T Z: I'm Barry Lefkowitz. I'm President of Management Government Resources, Inc. I'm here on behalf of Orleans Homebuilders, which is one of New Jersey's most prominent residential home builders in the State of New Jersey.

Does that give me extra money, Mike? (no response)

I have with me Meryl Gonchar, who is the attorney of record for Orleans.

SENATOR KAVANAUGH: I can't hear you.

MR. LEFKOWITZ: Is it on? (referring to PA microphone)

SENATOR KAVANAUGH: It should be pretty good.

MR. LEFKOWITZ: Here it is.

SENATOR KAVANAUGH: That was a low-bid microphone, so it should work. (laughter)

MR. LEFKOWITZ: That will teach you.

Thank you, Mr. Chairman, for giving us these few minutes to speak.

As all of you are aware, we have sent a variety of different correspondence to the Commission regarding this issue dealing with property in Clinton Township and the Water's Edge Project that the Orleans Homebuilders was building, which was based on affordable housing.

The only comment I want to make, and then I'm going to let Ms. Gonchar speak, is that the three members of the Legislature that are here have known me for a long, long time.

Senator-elect Lance, you may recall, I used to lobby you when you were in the Governor's office.

And, Mr. McGlynn, I used to come to you often when you were with Governor Kean, and we've known one another a long time. You know I'm a fairly levelheaded person, but I've got to tell you I'm absolutely outraged at what transpired yesterday, in a meeting involved with DOT and my client, in regards to the appraisal that was done on his property.

And it's most unfortunate when we leave power in the hands of certain bureaucrats to make determinations about the value of property when you've had professionals who were brought in by the State for the purpose of appraising the property.

But let me have Ms. Gonchar quickly share with you the issue. We recognize that the State House Commission, because of the fact that this land is involved now with being turned over to Clinton Township as a road for this project, that you no longer have the decision making; however, we think that it would be appropriate for the Commission to let its feelings be known in regards to what transpired from yesterday's meeting.

SENATOR KAVANAUGH: We're giving the opportunity for public forum, but we passed a bill, just because of this, to allow DOT to transmit properties rather than have each one get involved in the State House Commission.

But since you're a good guy, we'll let you air your feelings, but just briefly, please.

MERYL A. G. GONCHAR, ESQ.: Orleans Homebuilders is building a project that's part of Clinton Township's Fair Share Plan. The property does have frontage directly on Route 31 and was previously approved for twice the number of units with direct access onto 31.

In the course of our reducing the size of the project, we were requested to try to get left-turn access into the site from 31. The township engineers came with us. We met with DOT a number of -- two years ago, at this point, and discussed with them how to obtain left-turn entrance. They indicated they would not permit it at the location where we have access, but suggested that the way to get left-turn was to create a roadway across property they owned to tie into a jughandle that connects Route 513 and Route 31. And that was the genesis.

The project has been approved by the local planning board. With that access, a permit has been issued by DOT. And while we understand that there are certain constraints in terms of what the DOT can charge a municipality for a road, and this is always proposed to be a public road by the township, we understand and we believe that under the statutory authority what we're being asked to pay, which is \$414,000 for three acres of land that is so steeply sloped, that under the township's ordinance, nothing could be constructed on it, and it could not be counted towards FAR or density.

And since it will only be improved with the slopes and the road, it seems an excessive amount, particularly when the appraisal conducted by an appraiser on the DOT's approved list indicated that the value of the property is \$100,000. With regard to any restriction they may have for selling for what they purchased it, we are simply questioning the legitimacy of taking the total acreage of the site and dividing into the purchase price when the DOT themselves, in the original condemnation where they sought to obtain the property, valued different portions of the parcel at different -- significantly different amounts.

We're suggesting if this was three acres of wetlands, no one would suggest that it has the same per-acre value as uplands, where you could build. And that's simply because they've determined that we need this -- is not justification for paying, what we believe to be, an exorbitant amount for land that is for the public use.

SENATOR KAVANAUGH: One question. Who is going to pay for the road construction?

MS. GONCHAR: Orleans is going to pay on behalf of the -- for the township, as part of our approval.

SENATOR KAVANAUGH: All right. But you're going to pick up the cost?

MS. GONCHAR: Of the construction, absolutely.

SENATOR KAVANAUGH: No cost to the township.

MS. GONCHAR: We've represented that to them, and it's part of our approval that we construct this road at no cost to them.

SENATOR KAVANAUGH: Thank you very much.

Any questions from any members? (no response)

Thank you, both.

MS. GONCHAR: There is a representative from the counsel for the township if the Commission has any questions. Ms. Kind (*sic*) from Bateman, Coley is here.

SENATOR KAVANAUGH: Just make a note that he is present, so he can--

MS. GONCHAR: She, Stefany.

SENATOR KAVANAUGH: She.

MS. GONCHAR: I may have misspoken or not spoken loud enough. She.

SENATOR KAVANAUGH: Okay. Thank you.

Leonard knows that young lady.

Would you care to say anything?

Would you come forward. It doesn't mean you have to say more than seven words, because that includes your name and your firm. (laughter)

S T E F A N Y W O L F E, E S Q.: Okay. My name is Stefany Wolfe. I represent Clinton Township, on behalf of Bateman, Coley, Yospin, Kunzman, Davis, and Lehrer.

ASSEMBLYMAN IMPREVEDUTO: Excuse me. Is there a way to make these louder? Either I'm getting older, or-- (referring to PA microphone)

SENATOR KAVANAUGH: Try that one over here.

MR. McGLYNN: Is there some reason why these are not turned.

HEARING REPORTER: We do not do the PA system. Those are the microphones for transcribing. The taller microphone doesn't amplify.

SENATOR KAVANAUGH: We'll do it in Morse code. (laughter)

MS. WOLFE: My name is Stefany Wolfe. I represent Clinton Township on behalf of Bateman, Coley, Yospin, Kunzman, Davis, and Lehrer, the firm representing Clinton Township.

We have no issues with the Orleans project. Everything is fine. We are in agreement that they will pay for all the road costs. And we're just kind of here as an -- just because we're supposed to be here.

We don't have any challenges or issues at all. Everything seems fine. We're just concerned about the discrepancy between the DOT charging price and then the appraised price of \$100,000.

SENATOR KAVANAUGH: Thank you.

Okay. We will move on to Item 9.

MR. McGLYNN: Item 9 is RPR 02-08, Block 139, part of Lot 2.01, and Block 140, part of Lot 6, in Camden. The New Jersey Department of the Treasury requests approval to grant an easement on the grounds of the

New Jersey State Aquarium to Camden County to operate and maintain the Children's Garden, an interactive theme garden.

SENATOR KAVANAUGH: Motion.

ASSEMBLYMAN IMPREVEDUTO: Moved.

SENATOR KAVANAUGH: Moved and seconded.

MR. McGLYNN: Assistant Treasurer Armenti.

ASSISTANT TREASURER ARMENTI: Yes.

MR. McGLYNN: Director Holzbaur.

MS. HOLZBAUR: Yes.

MR. McGLYNN: Director Graf.

MR. GRAF: Yes.

MR. McGLYNN: Assemblyman Impreveduto.

ASSEMBLYMAN IMPREVEDUTO: Yes.

MR. McGLYNN: Assemblyman Lance.

ASSEMBLYMAN LANCE: Yes.

MR. McGLYNN: Chairman Kavanaugh.

SENATOR KAVANAUGH: Yes.

Number 10.

MR. McGLYNN: May I, Mr. Chairman?

Assemblyman Impreveduto, I assume that you would be in the affirmative on the first eight that we dealt with.

ASSEMBLYMAN IMPREVEDUTO: Yes.

MR. McGLYNN: Thank you.

Item Number Ten, RPR Number 02-09, Block 25001, part of Lot 27, in Montgomery: The New Jersey Department of the Treasury requests approval to dispose of five acres of land, located on the grounds of the North Princeton Developmental Center in Somerset County, to the Friends of Homeless Animals.

SENATOR KAVANAUGH: Excuse me one second.

Have they arrived at any figure for that five acres over in Montgomery, or are we going on faith here this morning?

ANTHONY R. MAZZELLA: Mr. Chairman, that property is across the street at the McCorkel (phonetic spelling) site. We did sell them a five-acre piece several months ago. This additional five acres, we're getting appraised. It will be deed restricted. And it is only being conveyed in order for them to meet zoning requirements.

SENATOR KAVANAUGH: All right. Now, the only question I ask is that they're rather touchy-feely down in Montgomery. What are they going to say now that we are going to have-- Is this 10 acres of homeless animals? I mean, they get--

MR. MAZZELLA: No, the facility that they've described to the township, in terms of getting their approvals -- their site plan approvals have been represented to us to be acceptable. Their limitation is that they don't own a 10-acre piece and would require zoning variances. So they approached us to see if we could give them an additional five acres to meet the minimum zoning. So, this is not an expansion of facilities, per se, simply a lot accommodation so that they can meet minimum zoning requirements.

SENATOR KAVANAUGH: Is there anyone here from Montgomery? (affirmative response)

Yes, may I hear you, please?

Come forward.

Yes. Your name and--

C H E R Y L M I L L S: Cheryl Mills, Founder and Chair of Friends of Homeless Animals.

Good morning, ladies and gentlemen. Thank you very much for your support on the first parcel.

I just want you to know that, for three years, we've been working with Landmarks Committee there, and they're fully supportive and very excited about this project.

There's a 10-acre overlay up there. And in order for us to do any kind of meaningful project with the first five acres and the building, which is Cedar Lodge, which is deteriorating quite substantially even as we speak-- So the county, the Landmarks, the local council are very supportive of our project. And we needed this additional five acres, even though it's primary wetlands. To be honest with you, it's not really giving us very much, but we needed it for setback requirements in order to proceed with the first five acres in a meaningful way. But we have full support of local council there -- Landmarks.

And just so you know, it's really across the street from North Princeton Developmental Center. It's on the McCorkel training swath of land on the west side of 601. So, if you're thinking that North Princeton Developmental Center on the east side, which is the large 675-acre parcel, it's

really on the west side of the street, right next to and sharing the same swath of land as McCorkel training center.

Thank you very much.

ASSEMBLYMAN IMPREVEDUTO: Just a quick question. Is there a limitation on how much you can expand that facility?

MS. MILLS: There is a local ordinance for a land use that has already been approved locally for this. And it's up to 20,000 square feet -- is what the local ordinance provides for us. And it was written to accommodate, really, our needs.

ASSEMBLYMAN IMPREVEDUTO: And in addition to the next-- If we give you this next five acres, will you be able to double the size of the facility?

MS. MILLS: We will only be able to do up to that 20,000 square feet. But as it stands right now, we really can't even do that because of the set back requirements in the wetlands. The wetlands, on even the first five acres, are really difficult to navigate. So, I think in conjunction with the requirement for the 10-acre overlay, and in addition to these wetlands problems that we have there -- the next five acres -- so it's really crucial for us to be able to really accommodate the 20,000 square feet in the ordinance. But the ordinance was written for us -- locally approved June 29 of this year, unanimously, at council up there.

Thank you very much.

SENATOR KAVANAUGH: Thank you.

Now, you promise that if the dogs run away or the cats run away you won't call my office the way they did when we had McCorkel School and they would run away? (laughter)

MS. MILLS: Oh, I think Assemblyman Bateman would love that. He already has a dog.

Just so you know, we are providing a community education and adoption facility. It's really all indoors. And what we're providing for the local community is actually a community center, which they are so excited about. So that's really what the plan is -- to kind of bifurcate the effort to do a community education facility and a community center for Montgomery area, which, you know, they're desperate to have something like that. So, we're already working with Anne Marie Weber, the principal of the high school, and Linda Romano, the president of the school board, to offer some programs in addition to that for noncollege bound students -- workplace-ready programs. So, we hope to really make this an education facility, as well, in that local area.

Thank you very much, Chairman.

SENATOR KAVANAUGH: Thank you.

Motion, first.

MR. GRAF: Motion.

SENATOR KAVANAUGH: Moved and seconded.

MR. McGLYNN: All right.

Mr. Chairman, Numbers 11, 12, and 13 are part of the responsibilities of the State House Commission to set rates. It is done through the rate setting methodology for establishing State hospital and institutional rates.

SENATOR KAVANAUGH: Can we move them as one?

MR. McGLYNN: I think we can move them as one, and I'm going to use some brevity in indicating what they are, if I may, because they're set forth in the minutes, unless there are individuals in the audience--

SENATOR KAVANAUGH: There are agendas available to the people in the audience.

MR. McGLYNN: Okay.

So Item No. 11 -- we're setting the State psychiatric hospital rates at the State general psychiatric hospital of \$212.42 per diem, the Arthur Brisbane Child at \$489.11, the Ann Klein Forensic Center at \$268.74, the

Community Mental Health Center of UMDNJ at \$429.94, the State developmental centers at \$131.29, and the residential functional services at \$82.20 with a number of footnotes that are attached and made a part of the minutes.

Number 12 covers, again, the same issues for patients residing in county psychiatric facilities pursuant to the same hospital State aid reimbursement methodology. The Bergen County Regional Medical Center for inpatient services is \$622.05; the geriatric psych hospital is \$282.46; the extended care acute psychiatric hospital, \$428.57; acute partial psych, \$188.92; outpatient psych, \$174.83. Those two are for outpatient rates. The Buttonwood Hospital of Burlington County, \$470.41; the Camden County Health Services Center, \$433.46; Hudson County Meadowview Hospital, inpatient, \$488.35; Essex County Hospital Center, inpatient, \$380.94; and Union County Runnells Specialized at \$494.63.

Number 13 concerns the Bergen County Regional Medical Center, again, through the same procedure. The Bergen County Regional Medical Center inpatient psychiatric will be \$650.19; the geriatric psychiatric, \$299.46; the Bergen County Regional Medical Center, extended acute psych, \$470.50. And again, all of these are in the agenda, and they will be as part of the minutes.

MR. McGLYNN: Not that I'm--

Assemblyman Lance will become Senator Lance on January 1 and, I don't think, will be a member of the State House Commission after that, because I think Senator Kavanaugh is going to stay on.

But we have known each other now for, I guess, almost 20 years, having worked together in the Kean administration. And not only do I value his guidance at times, but more importantly, I value his friendship, and I will see him, obviously, in the Senate, because I will lobby him often. But I appreciate his being prompt in attending all of these meetings.

ASSEMBLYMAN LANCE: Thank you, Mr. Secretary.

Mr. Chairman, it's been my pleasure to serve under your leadership on this Commission. And I will miss my service here. But I believe you have conducted all of the meetings in a completely impartial, judicious fashion, and--

SENATOR KAVANAUGH: Timely, timely fashion. (laughter)

SENATOR KAVANAUGH: Thank you.

MR. McGLYNN: We don't know about Mr. Graf, where he's going to be, so-- (laughter)

ASSEMBLYMAN IMPREVEDUTO: Just a comment if I can to Senator-elect Lance.

Leonard, you're moving to a place where no one has an identity. You will no longer be Leonard, you will now be Senator. (laughter)

ASSEMBLYMAN LANCE: We'll see about that, Tony. (laughter)

SENATOR KAVANAUGH: And to all, a good night.

(MEETING CONCLUDED)
